Smart Connect

Universal connector for smartphones, tablets and more

Handy, functional and always there when you need it – with Smart Connect you will always have the right connector for your mobile device. The compact universal adapter is modelled on the traditional Swiss Army knife and features the compact 4-in-1 principle.

Smart Connect is compatible with all major smartphones and other electronic devices. Choose between micro-USB Apple LightningTM and 30 pin and connect your device to a computer, power bank or charger via a USB port. It allows you to charge and synchronise different devices with a single tool. After use, all connectors can be stowed away in the housing. No more cable spaghetti – with Smart Connect you always have the right adapter.
